

This offends me that the NAB is trying to use petition 04-160 to infringe upon how I listen to my music. I pay for a service that allows me to listen to exactly what I want and when I want to hear it. Do I want to listen to rap without editing? Yes I do. Do I want to be able to listen to jazz without having to deal with other easy listening? Yes I do. On the way home from work, do I want to listen to commercials for 15 mins? No, I don't. Therefore, I purchased XM Radio and I love it. I rarely listen to FM anymore. Besides, on my recent deployment to a stateside Air Force Base, I listened to the same channel the whole way for 13 hours. You can't drive for more than an hour before you lose FM. The traffic and weather kept me advised about what I was going to run into and I was able to safely travel around a nasty storm and the dense traffic. Thanks XM! Please reject this NAB's Petition #04-160
